ENVIRONMENTAL PERFORMANCE

Past Achievement

Ryder Integrated Logistics, Inc., El Paso Distribution Center has demonstrated its commitment to environmental performance through reduced total solid waste and energy use. Since 1999, the facility has:

- **Reduced total solid waste** from packaging 76% by placing a greater emphasis on recycling.
- **Reduce energy use** 17% through better energy management practices.

Future Commitments

Ryder Integrated Logistics, Inc., El Paso Distribution Center is working to reduce discharges to water, accidental releases, and discharges to water. By 2004, the facility will:

- **Reduce discharges to water** of sulfuric acid by 100% through employee training on spill control and maintenance of batteries, and through new operations to refill batteries offsite.
- **Reduce accidental releases** of oil on forklifts from two per year to zero through increased employee training and, subcontracting.
- **Reduce accidental releases** of oil from maintenance trucks from two per year to zero through oversight and enforcement by subcontractors.
- **Reduce discharges to water** of floor cleaner 100% by a complete recycling of the waste water stream.
